

RAJ SIROHI

Bulandshahr, UP | rajsirohi2555@gmail.com | +91 63976 82627 | [RajSirohi-Portfolio](#) | [linkedin.com/in/raj-sirohi](#) | [github.com/rajsirohi23](#)

PROFESSIONAL SUMMARY

Data Science and Analytics professional with experience in building predictive models, performing feature engineering, and generating insights from complex datasets. Proficient in Python, machine learning, and data visualization, with a strong focus on solving real-world problems through data-driven decision-making. Demonstrated ability to design scalable analytical solutions, communicate insights effectively, and contribute to high-impact projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML5, CSS3, R

Frontend: React.js, Redux, Bootstrap, Tailwind CSS

Database: MySQL, PostgreSQL, MongoDB, Redis

Data Science & Analytics: NumPy, Pandas, Matplotlib, Seaborn, Statistical Analysis, Machine Learning, Scikit-learn

Backend: Node.js, Flask, RESTful APIs, PHP

PROFESSIONAL EXPERIENCE

Web Development Intern | FuseBox.Cloud

Jan 2025 - March 2025

Noida, India

- Engineered user-friendly front-end components and assisted in backend integration for a Room Management System, improving overall application usability and workflow efficiency.
- Identified and resolved functional and performance issues through systematic testing and debugging, enhancing application reliability and user satisfaction.

Data Science & Analytics Intern | ZIDIO DEVELOPMENT

May 2025 - July 2025

Bangalore, India

- Built and evaluated machine learning models on real-world datasets, performing data preprocessing, feature engineering, and predictive analysis using Python.
- Collaborated with cross-functional teams to visualize insights, create dashboards, and document end-to-end analytics workflows for data-driven decision-making.

PROJECTS

Sehat-Setu - AI-Powered Healthcare Management Platform | [GitHub](#)

Aug 2025 - Nov 2025

Tech Stack :- HTML, CSS, JavaScript, Node.js, Express.js, LocalStorage, Web Speech API

Developed a full-stack healthcare web platform enabling secure interaction between patients and doctors with personalized dashboards and an AI-powered medical assistant for preliminary health analysis.

- Built a smart healthcare platform enabling patients and doctors to interact through secure login, personalized dashboards, and an AI-based health assistant.
- Designed an intelligent chatbot system that provides preliminary medical guidance, detects emergencies, and supports voice-based interaction in multiple languages.

Mini Compete - Smart Competition Management Platform | [GitHub](#)

Mar 2025 - June 2025

Tech Stack :- Next.js, NestJS, PostgreSQL, Prisma, Redis, BullMQ, JWT, Docker

Web-based competition management platform that enables organizers to create events and participants to register securely, with automated notifications and real-time capacity tracking.

- Engineered a full-stack competition system supporting secure role-based access, real-time seat availability, and automated registration workflows for seamless user experience.
- Built a scalable backend with background job processing and scheduled notifications using Redis queues and cron jobs, improving reliability and reducing manual intervention.

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified** - Azure Data Scientist Associate – Microsoft (2025)
- Oracle Cloud** - Data Science Professional
- Google** - Crash Course on Python(2023)
- Java Master Course** - CRUX - Coding Blocks(2024)

EDUCATION

B.Tech in Computer Science (Data Analytics)

GLA University, Mathura | CGPA: 7.68 / 10.0

2023 - 2027
